

1. Product name

Sound bank plus - mirror

2. Product code

12711471

3. Color

As pictured

4. Description

This multifunctional, hanging recording mirror can be used in many ways. It is possible to record and play messages with a (maximum) duration of 30 seconds. The recording mirror is adjustable in volume, making the sound a lot easier to record at any time. It is also possible to lock the recorded message so that it is not simply deleted. The recording mirror has a transparent cover, which makes it possible to place photos between the mirror and the plastic. The product has a suspension system and magnets.

5. Sensory stimulation

Feel, hear and see

6. Commissioning

Open the battery cover on the back with a screwdriver.

*Then place 3 AAA batteries under the cover, these batteries are **not** included.*

Record & Playback

- To record a message, the round, pink button on the left must be pressed. Press and hold this button while recording a message.
- To play the recorded message, you need to press the right, blue "play" button. If playback needs to be stopped, this button must be pressed again.

Lock recording

- To prevent a new message from being recorded, it is possible to lock the recording capability.
- Open the bottom cover on the back of the recording mirror, as soon as the black button is set to "on" it is not possible to record a new message. If the black button is set to "off", this is possible.

Volume

- There are 3 volume options. Hard (hi), normal (med) and soft (low). It is possible to change the volume, do this on the back of the recording mirror. Also use the bottom cover for this.

Cover

- The recording mirror has a cover, which makes it possible to place photos between the mirror and the plastic. In addition, it is also possible to write on the plastic, please use an erasable marker.
