Product information

The Cacoon is a suspended seat designed for relaxation. These instructions are based on the manufacturer's assembly and safety information.

Version	Cacoon Single
Maximum load	200 kg
Ideal hanging space	2.7 m headroom and 2.25 m^2 floor area
Hanging height	Ring at approximately seat height (around 64 cm); just above ground when loaded

Important: before publication, check that the version supplied by Nenko matches the illustrated model with a zippered sleeve.

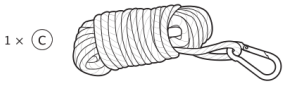

1. Parts and preparation

Before assembly, check that all parts are present and undamaged.

- 1 × Cacoon hanging chair (A)
- 8 × ring sections (B)
- 1 × suspension rope with carabiner (C)

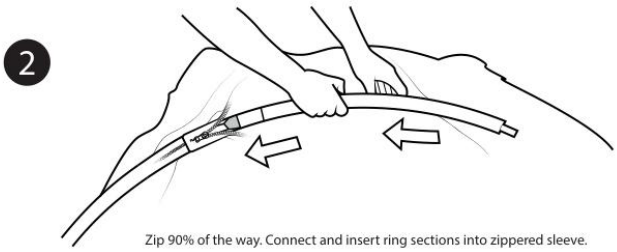

Ensure all parts are accounted for before proceeding with assembly.
Stellen Sie sicher, dass alle Teile berücksichtigt sind, bevor Sie mit der Montage fortfahre
Assurez-vous d'avoir toutes les pièces répertoriées avant l'assemblage
Asegúrese de tener en cuenta todas las piezas antes de proceder con el montaje.
Assicurarsi che tutte le parti siano prese in considerazione prima di procedere con l'assembl
Zorg ervoor dat alle onderdelen kloppen voordat u verder gaat met de montage.
Przed przystąpieniem do montażu upewnij się, że wszystkie części zostały uwzględnion

Assemble on a clean, level and dry surface. Keep small parts out of reach of children.

2. Assembly

1. Lay the Cacoon out on a clean, level surface.
2. Zip the ring sleeve approximately 90% closed. Connect the ring sections and slide them into the zippered sleeve.
3. Continue around the ring and make sure all connections fit securely.
4. Gently pull the fabric over the ring so that the ring sits fully inside the sleeve.

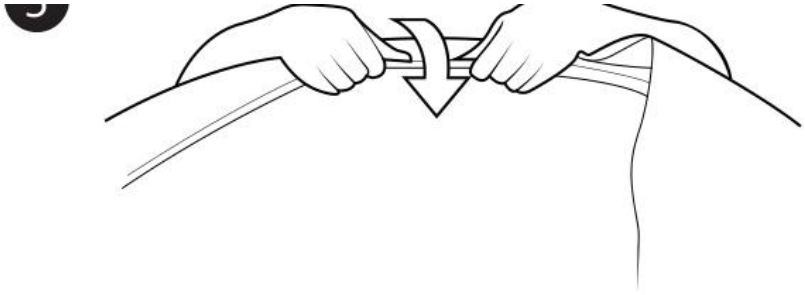

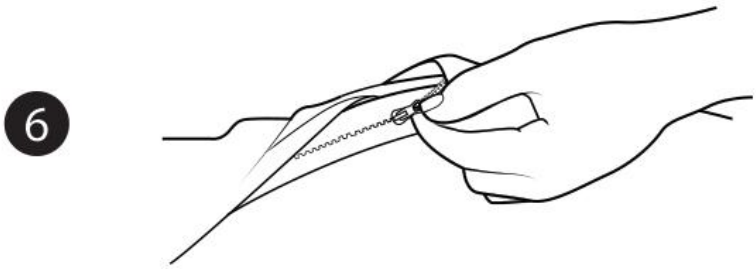

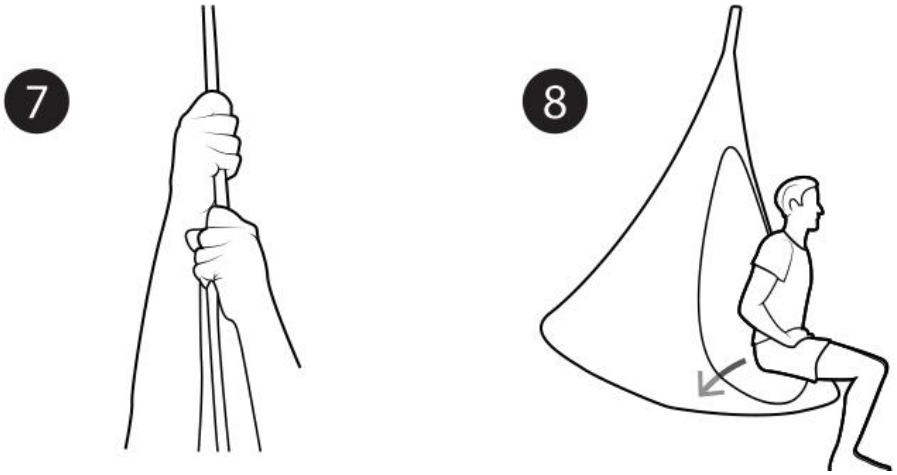

Zip 90% of the way. Connect and insert ring sections into zippered sleeve.

Assembly (continued)

5. Connect the ring sections firmly.
6. Close the zipper completely and check that the ring sits correctly inside the sleeve.
7. Secure the suspension rope to a sufficiently strong and safe hanging point using an appropriate knot.
8. Hang the Cacoon and check its stability and the clearance around it before use.

3. Safe use

- Sit down as you would in a regular chair and shift your weight until comfortable.
- To get out, place both feet firmly on the ground and stand up as you would from a chair.
- Never use the ring as a step or get in or out one foot at a time.
- Never stand in or on the Cacoon; do not twist or spin in it.
- Prevent the Cacoon from swinging into walls, trees or other obstacles.

4. Safety instructions

- Maximum load: 200 kg. Do not exceed this limit.
- The supporting structure and attachment point must be safe and capable of bearing at least the specified load. Consult a professional if in doubt.
- Regularly inspect the Cacoon, ring, rope and hanging point for wear or damage.
- Do not use the Cacoon if any parts are missing, damaged or worn.
- Tether the Cacoon during use as instructed by the manufacturer.
- Keep small parts out of reach of children.

5. Cleaning and care

- Wipe the fabric with a clean, damp cloth.
- Wash the fabric at a maximum of 30 °C using a natural detergent.
- Do not use solvents, abrasive products or harsh chemical cleaners.
- Hang the Cacoon to dry with the ring installed; never dry it without the ring.
- Do not tumble dry or iron. Do not use a pressure washer.
- During bad weather and in winter, store the Cacoon clean and dry in a cool, dry place.
- Drain any accumulated water by tilting the Cacoon.

6. Warranty and service

The manufacturer provides a limited one-year warranty against defects in materials and workmanship. Normal wear and tear, misuse and damage from external causes are excluded according to the manufacturer.
