## 4. Brief description

This recording card allows the user to record their own personal voice message and send the card. How nice is it when you open this card and roll out a sweet, personal message? With this card you make someone laugh, blush, but of course you can also just send a get well message with it. You decide!

## 5. In use

### Recording message

1. The on/off button is installed on the back, this button is located on the battery compartment. Slide it to the "on" position.
2. Open the card and place your thumbs on the two black buttons on the card, these two buttons are located at the bottom of the card.
3. Press the black buttons simultaneously and speak the desired message, at a distance of about 15 centimetres. You will hear a "beep" to confirm that you have started.
4. Make sure that you press the buttons correctly and that the red light stays on during the recording. This is a confirmation that you are recording.
5. Are you done recording? Release the two black buttons.
6. You will hear two beeps to confirm that the recording was successful.

### Play recorded message

1. Open the card and the recorded message will play.
2. This recording message can be played back many times you would like.

### Please note:

1. You can record a message of up to 40 seconds.
2. You can record a new message as often as you like. As soon as a new message is recorded, the previous recording disappears.
3. Batteries are included.
4. Are you posting the card? Then leave the on/off button on "on". This ensures that the recipient hears the message as soon as the card is opened.
