

1. Productname

Nenko Interactive - LED Strip Set 500 cm

2. Product code

21002111

3. Colour

See picture

4. Description

Lighting that is both flexible and interactive. Perfect for marking, emphasizing and limiting walls, stairs, ceilings, passages or wherever you want indoors. With 5 meter self-adhesive LED strip and power supply. Can be used with the Nenko Interactive switch panel for remote control of colours. Not suitable to hold install out of reach. We recommend placing the LED strip in an aluminum profile (article 21002 K) for the best heat transfer.

5. Contents

1 x 500 cm RGB strip
1 x remote control

6. Sensory stimulation

7. Installation

1. The small remote control is easy to use. All functions on the remote control work as it's indicated, FADE, FLASH etc.
2. Briefly pressing the buttons only changes the colour of the LED Strip.
3. Long press of the buttons changes the colour of all present Nenko Interactive products.
4. Long press of the FADE / STROBE? SMOOTH buttons ensure that all Nenko Interactive products present do this synchronized.
5. To link the 6 buttons Nenko Interactive panel, either the 'Pairing' button on the LED Strip Controller box must be pressed and held or the 'ON' button on the Infrared remote control.
