Light Source: 240V 35W GU10 Halogen Reflector Spotlight

7. Safety

Never use a lamp if the bottle has been dropped, as this may make the glass fragile. In this case, buy a replacement bottle and throw away the old bottle. If the liquid is accidentally swallowed, we recommend drinking plenty of water. If the liquid is spilled on the skin or gets into the eyes, pour cold water over it. If certain symptoms appear, we advise you to consult a doctor.
