

1. Product Name:

Nenko Bisonyl-PVC

2. Short description

Bisonyl is urine-resistant, fire-retardant and phthalate-free.

3. Color

Colors can be chosen according to colorsheet

4. Furniture cleaning instructions with Bisonyl:

Use a soft brush to remove all loose dust/dirt

- Clean with a mild detergent (such as Lux soap flakes in a lukewarm solution) applied to a sponge or damp cloth.
- This can be disinfected with a very weak solution of Milton liquid.
- Do not use excessive amounts of water and make sure that the PVC is always dry after cleaning.
- Do not use a scouring pad.
- Do not use boiling/very hot water, dishwashing liquid/aggressive detergent or solvent, as this will discolour and harden the coating.
- Steam cleaning is not recommended.

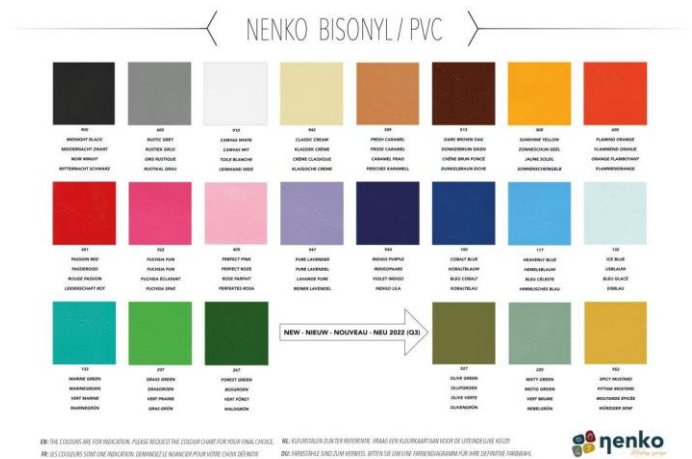

The bisonyl should therefore only be treated with a mild cleaning agent, if there is a more stubborn dirt we have our bisonyl cleaners for that, these can be ordered via our website:

[Buy Bisonyl cleaning set 100ml - Nenko](#)

[Buy Bisonyl cleaning set 200 ml - Nenko](#)

[Buy Maintenance Kit Waterbed - Nenko](#)

Please note, marker, pen, ink and releasing fabrics in clothing (such as with newly dyed jeans) etc. cannot be removed, this is ink that pulls into the coating of the fabric and cannot be removed.

5. Safety

- Remove all packaging and store it in a safe place out of the reach of clients or dispose of it responsibly. Plastic bags and packaging can be dangerous for children and vulnerable people.
- This product contains a foam filling. The zipper is also stitched and hidden where possible by a fabric flap. Check regularly if the zipper is not easily accessible. Do not attempt to access the inside of this product. Never allow children or vulnerable people to access the inside of this product.
- If seams or the zipper are damaged, please contact Nenko immediately.
- Keep away from heat sources and fire.
- NENKO soft cushioning is made of high quality durable PVC (Vinyl) with high quality fire retardant soft foam.
- Nenko soft damping meets all European fire retardant standards for the combined use of vinyl and foam.

Please note the following for all materials:

- Always monitor the use of these products.
- Regularly draw up a cleaning schedule.
- Vinyl breaks, tears and rubs off when exposed to sharp objects or constantly rubbed by hard objects. Remove shoes and avoid buckles, zippers or sharp/hard/pointed objects that come into contact with the surface.
- Check the seams regularly to make sure they are not worn or split and that the inner filling is not accessible.
- Wipe off accidental stains/liquids as they occur or are noticed.
- From time to time, if possible, lift floor cushions or move furniture to clean all surfaces and the floor underneath.
- Avoid eating and drinking while using these products.
- Do not place near heat sources or fire that may damage the surface.
- Direct contact with bright sunlight can affect the material over time.
- Do not saturate the material with plenty of water.
- Some of our products only contain zippers for production purposes. Do not attempt to open it or access the inner part of these products. Never allow children or vulnerable people to access the inner part of this product.
