

1. Name of the product

Eendoostaak Sorting beads

2. Product code

21824846

3. Colour

As illustrated

4. Short description

Tasks that are made within the framework of a plastic box. The tasks have a clear beginning and a closed end. The material is uniform, durable, safe and hygienic. The one-task-boxes are specifically designed for children / young adults with autism and are aimed at development and learning. Adults and older people with a lower mental level can perform the tasks to maintain skills or as a relaxing activity.

5. Contents

This task contains 4 sticks and 10 colored wooden beads.

6. Safety

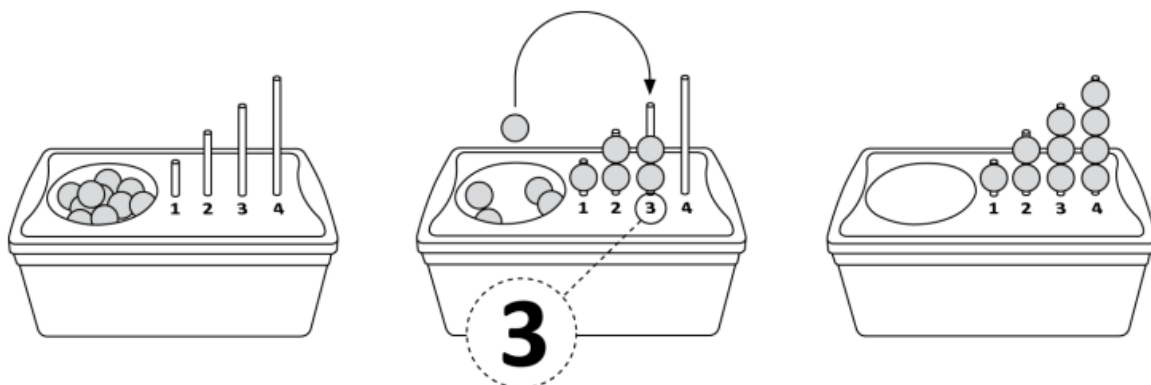

This product should be made under guided/adult supervision at all times. Because of the small parts, it is not suitable for children under 3 years of age.

7. Product materials

Plastic box (33x19x12.5 lwxh), provided with a plastic container. Beech-wooden sticks and wooden beads.

8. Assembly

From small to big, the wooden sticks should be shoved into the holes with force. The game materials are not suited for disassembly.

9. Usage

Place the wooden beads in the container. Sort the beads by amount. Every stick has a number in order to make/teach the connection between numbers and amounts. The task is ideal for promoting eye-hand coordination as well.

Game end

The game ends when all parts have been sorted.
