

1. Name of the product

Eendoostaak Completing colour sequences

2. Product code

21844846

3. Colour

As illustrated

4. Short description

Tasks that are made within the framework of a plastic box. The tasks have a clear beginning and a closed end. The material is uniform, durable, safe and hygienic. The one-task-boxes are specifically designed for children / young adults with autism and are aimed at development and learning. Adults and older people with a lower mental level can perform the tasks to maintain skills or as a relaxing activity.

5. Contents

This task contains 20 coins in 4 different colors.

6. Safety

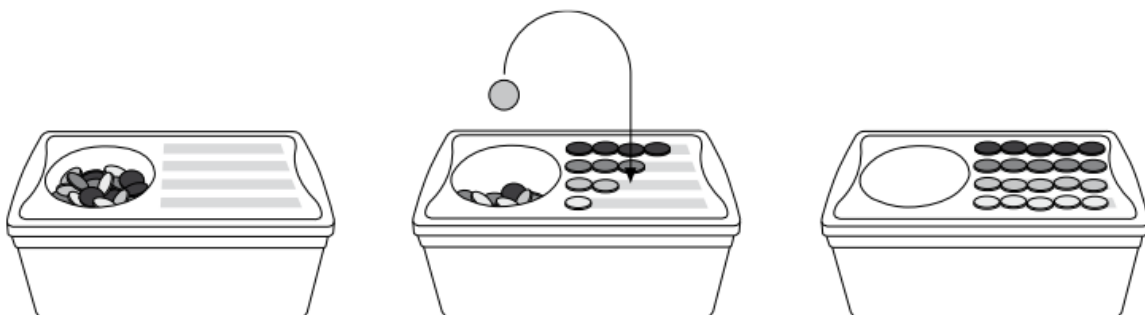

This product should be made under guided/adult supervision at all times. Because of the small parts, it is not suitable for children under 3 years of age.

7. Product materials

Plastic box (33x19x12.5 lxxh) provided with a plastic container, plastic coins, and Velcro.

8. Assembly

No assembly needed. The game materials are not suited for disassembly.

9. Usage

In this task, color sequences need to be completed. A start has been made for clarification. This start can be modified when the task performer knows how the sequences need to be made. To simplify the task, fewer colors or fewer coins can be used in the sequences.

Game end

The game ends when all the coins have been used.
