

1. Name of the product

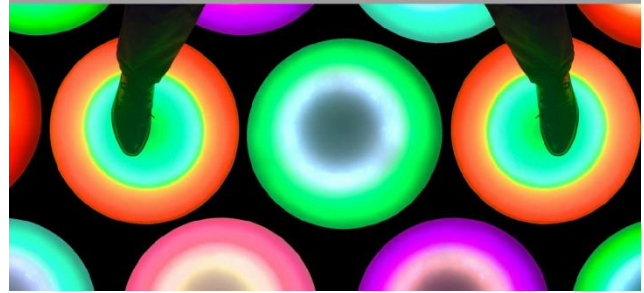

Interactive round floor tile – large

2. Product code

25350477

3. Colour

As pictured

4. Short description

This interactive wall and/or floor tile uses the latest modern technology. The light stops on a specific colour when a hand or foot is removed from the tile. With synchronized control to get the highest resolution with two different, interactive light circles. Perfect 3D effects, touch sensitive with fast response. Adjustable brightness, energy-saving and environmentally friendly. Installation is easy and fast. Per piece.

5. Content

- 1 x Interactive round floor tile – large
- 1 x adapter

6. Sensory stimulation

Sight & feeling

7. In use

Step 1: the interactive floor tile must be installed by an adult! This can be done on the floor or wall.

Step 2: Make sure there is space under the tile. This allows cool air to get under the tile, preventing overheating.

Step 3 : Make sure that the wire and adapter are installed safely so that there is no tripping hazard.

8. Additional information

- Perfect 3D effects.
- Fast response time.
- The brightness can be changed to different strengths.
- The floor tile should not burn for more than 4 hours in a row. If the floor tile is left on, the service life becomes shorter.
- The tile must be installed with its own adapter.
- If the glass of the tile breaks, stop using the floor tile.
- The light source cannot be replaced! When the lamp breaks, a complete new floor tile must be purchased.
- If the external cable is damaged, have it replaced by an expert.

9. Technical information

Size: 50 cm
Weight: 9 kg
Current: 230 V

10. Maintenance

Cleaning the floor tile:

Step 1: Use a damp cloth and warm water.

Step 2: Make sure that no water gets near the wires with cleaning!
