

1. Name of the product

Wooden infinity mirror with remote control

2. Product code

26125430

3. Colour

As pictured

4. Short description

Look in the mirror as it gives the illusion of a sparkling tunnel with light beads. Create a truly amazing, illuminated effect with this mirror with the wow factor! A wall-mounted wooden mirror with an infinite effect surface that glows. This mirror is a great addition to any sensory room. Can be attached to the wall. This mirror comes with a remote control, with which you can control the colors yourself.

5. Content

1x depth mirror
1x remote control (requires 2x AAA batteries, not included)
1x USB cable 1x EU adapter, 1x UK adapter
Fasteners and fittings to mount on a wall

Note: Contains series of flashing lights that may affect individuals prone to photosensitive epilepsy or other photosensitivities. This is not a toy. Children should always be supervised when using this product.

6. Maintenance

The mirror and the wood may not react well to the solvents used in these cleaning products. This can cause streaks or stains on the mirror that cannot be removed. Therefore, we recommend cleaning the product only with a damp cloth.

7. Security

- Before installing the product, make sure that the product is not damaged. If any part of the product is damaged, do not attempt to assemble and use.
- Do not attempt to connect this product to the mains. This product does not need to be connected to the mains. It works using an adapter.
- Use only the adapter that came with this product and no other adapter should be used.
- Always unplug the power cord before cleaning the product.
- Stay away from heat sources.
- For indoor use only. Avoid use in humid or humid conditions and avoid contact with water.
- Perform regular checks to ensure that fasteners, fittings, and installation do not come loose.
- This product contains non-replaceable LEDs. If one of the LEDs stops working, the entire unit must be removed according to the guidelines of your local municipality. Do not try to solve the problem by disassembling the device.
- Make sure that the cable and product are positioned in such a way that there are no tripping, entanglement or strangulation hazards.

- Make sure that the surface where the mirror will be mounted is strong enough to hold the weight of the mirror.

8. In use

For installation:

Please read these instructions carefully before you begin and save them for future reference. Check the contents of the package and make sure that you have listed all the required parts and that there are no missing parts. If any parts are missing, please contact us.

1. Carefully remove the product from the packaging.
2. Please note: There is plastic wrap on the mirror surface to protect the mirror, please remove foil before use.
3. Ensure that a power outlet is within reachable distance, without stretching the wire too much

Installation:

1. On the back of the mirror (under the black power switch), connect the end of the adapter's pen to the DC port. Plug the adapter into the power outlet and turn it on.
2. To turn the mirror on/off, use the button on the front of the mirror
3. Hanging hooks are pre-drilled on the back of the mirror and button controller, you might want to mount this on a wall. Before mounting on the wall, you should conduct a risk assessment and make sure that the wall is strong enough to hold the weight of the mirror and button controller.
4. The colors can also be changed with the small round button on the front.

Remote control functions

	Increase and decrease brightness		Select primary main colors in static mode		Color fades
	ON / OFF buttons		Changes due to different colors in Flash mode		Color fades slowly
	Change by different colors in static mode		Changes color in 3 seconds jumping		

To insert batteries into the remote control, open the cover on the back of the remote control and insert 2 x AAA batteries – be sure to follow the diagram in the battery case. Put the lid back and turn it on.
