

1. Name of the product

Interactive dog

2. Product code

29108810

3. Colour

As pictured.

4. Short description

This amazing puppy not only looks lifelike, but it also has authentic sounds and feels like a real puppy! The dog has a nice soft coat. In addition, the puppy reacts to movement, but also to petting and cuddling this is due to the built-in sensors. Of course, the dog also needs to relax. He will do this during a cuddle session. He closes his eyes and the enjoyment can begin. If the dog is not petted for a few minutes, the eyes will also close and he will go to sleep. With a pat on the back, he wakes up. This pet is specially developed for the care of the elderly, but is certainly also intended for everyone else. It's a pet for everyone! Under the coat on his stomach is an on-off switch and an ability to turn off the sound.

Works on 4 x C (LR14) alkaline batteries (included).

5. Content

Interactive dog

4 x C (LR14) alkaline batteries

6. Sensory stimulations

Feel, see and hear.

7. Safety

	<p>WATCH OUT!!!</p> <p>Do not put the dog on the ground, to avoid tripping. Place the dog on a raise, if it does not used. Especially during the night.</p>	
---	--	---

8. Technical information

Size: 45cm

9. Installation

1. Turn the dog over and find the opening at the bottom (on the tummy).
2. Open the opening to make the switch visible.
3. You can now operate the switch.
 - a. When you slide the switch to 'OFF', the dog is completely out. It doesn't move or make a sound. On this position the dog stands when you take it out of the package. This mode saves battery, in if you don't use the dog for a few days.
 - b. When you slide the switch to 'MUTE', the dog is silent. All the other movements will continue.
 - c. When you slide the switch to 'ON', the dog is completely turned on. He can move and make noise.

10. Maintenance

- If dirt comes on the dog, remove it immediately.
- Do not use cleaning agents and/or stain removable. Use a damp cloth to remove dirt.
- The collar is removable and can be washed in the same way as the dog's fur.
- Never submerge the dog.

11. Replacing batteries

1. Open the opening under the dog (on his belly).
2. Open the hole by turning out the screws.
3. Remove the old batteries
4. Replace it with 4 new 1.5-VOLT C size alkaline batteries.
5. Put the lid back on by tightening the screws again. Close the Velcro.
6. To see if the batteries are working, check that the switch is on 'ON' or 'MUTE'.

IMPORTANT: BATTERY INFORMATION

CAUTION:

1. TO AVOID BATTERY LEAKAGE

- a. Always follow the instructions carefully. Use only batteries specified and be sure to insert them correctly by matching the + and - polarity markings.
- b. Do not mix old batteries and new batteries or standard (carbon-zinc) with alkaline batteries.
- c. Remove exhausted or dead batteries from the product.
- d. Remove batteries if product is not to be played with for a long time.
- e. Do not short-circuit the supply terminals.
- f. RECHARGEABLE BATTERIES: Do not mix these with any other types of batteries. Always remove from the product before recharging. Recharge batteries under adult supervision. DO NOT RECHARGE OTHER TYPES OF BATTERIES.

2. Should this product cause, or be affected by, local electrical interference, move it away from other electrical equipment. Reset (switching off and back on again or removing and re-inserting batteries) if necessary.

12. Instructions for use:

When you stroke the dog's cheeks, he will press his cup against your hand

If you stroke the back of his cup, he'll move.

If you talk to the dog, he will look at you and he will respond with dog sounds and the BarkBack™ technology.

If you don't touch the dog for a few minutes, he'll go to sleep. To wake him up, you can give him a nice pat on the head.

13. Functions of the dog

In the following spots on the dog there is a sensor:

- Between the ears
- On the head (light sensor)
- On the cheeks
- On the mouth
- On the back
- Microphone

These sensors respond to movement and touch.
