

The Time Timer original line is **NEW and Approved** and will be delivering soon!

- New and improved models will be available in the next 60-90 days; timeframe will vary depending on the model.
- Old models will only be available while supplies last.

Here are the key updates to the original line:

- All models will come with a dry erase card which fits in a slot on top of the timer to create time/task management in one location and/or develop a visual schedule.
- Improved and updated internal componentry to increase reliability durability.
- Redesigned packaging to reduce the use of plastics while also providing SIOC (ships in its own container) (Medium and Large) and better protection for products during transit.

Ref.nr.JAC 5109 Time Timer Large®
Measurements 306mm W x 307mm H x 43 mm D

Medium and Large updates:

- A clear plastic lens covers the disk to further improve durability and protect the red disk from accidental tears (and little sticky fingers).
- Magnets will be included on both of these models. The previous magnet & non-magnet versions are consolidated into one model with the redesign.
- Requires two (2) AA batteries (previous models required only one battery)
- Packaging has been upgraded to SIOC (ships in its own container) standard so that these two models will no longer require an over box in order to ship single units.

Pocket updates:

- Flip cover is now clear so that the time remaining is easier to see while the cover is closed.
- The face has been recessed so that the timer will continue to countdown while the cover is closed.
- Packaging now includes a soft, reusable drawstring bag to carry the timer or to repurpose for another use by the user.
- Requires only one " AA battery".

Ref.nr.JAC 5108 Time Timer Medium®
Measurements 190mm W x 192mm H x 31 mm D

Ref.nr.JAC 5107 Time Timer Pocket®
Measurements 75mm W x 80mm H x 36 mm D

Please note:

for those resellers that require a retail-ready package, a retail sleeve is available upon request that will simply slide over the SIOC (ships in its own container) package to provide a four-colour retail.
