

1. Name of the product

Weighted blanket Kokos (3,7 kg)

2. Product code

59291872

3. Colour

As illustrated

4. Brief description

Kokos is specially designed for people who often suffer from physical stress or restlessness. The weighted blanket can help to calm the body in stressful situations. The weighting of the blanket in combination with its long and weighted body provides relief, calmness and security for people with irritability, tension and sleep problems. Children, adults and also elderly people with dementia can benefit from the use of this weighted blanket. Kokos helps to calm down users who have a lot of restlessness in the body.

5. How to use

1. Kokos is easy to use on the lap, but also in bed.
2. It is also possible to lay the weighted blanket across the body, in this way Kokos can directly be cuddled.
3. This gives the user a weighted "cuddly" feeling.

6. Sensory Stimulations

Toch, proprioception

7. Specifications

Size: 103 x 54 x 4 cm
