4. Brief description

This glitter lamp not only gives light but can also be used as a Bluetooth speaker!

5. In use

- The glitter lamp is a very multifunctional product. The lamp not only gives light and atmosphere, but also sound!
- The Bluetooth lamp can be used in almost any room. The use in a damp room is not recommended because of the risk of short circuit. Children, adults, and the elderly can relax by following the glitters.

Connecting Bluetooth

- Turn on Bluetooth on your phone.
- PLI606X will appear in the Bluetooth list. Connect your phone or other device with the Speaker Lamp.
- Then enjoy your favourite music (wirelessly).
- It is possible to make a Bluetooth connection with the glitter lamp within ten metres, beyond this it is no longer possible.

Skip to next/ previous song

- Briefly press V+ to go to the next song.
- Briefly press V- to go to the previous song.

Adjusting Volume

- Press and hold the V+ button to increase the volume.
- Press and hold the V- button to decrease the volume.

Connecting with AUX cable

- It is also possible to make an AUX connection instead of a Bluetooth connection.
- Do this by plugging the AUX cable into the glitter lamp and connecting it to your phone, tablet, or computer.
- Briefly press and hold the V+ button to increase the volume. Briefly press the V- button to decrease the volume.

Play/ pause

- Press the || button to pause/ play the music.
